---	---

1. Komponenter | Components

Handledarräcke | Banister railing

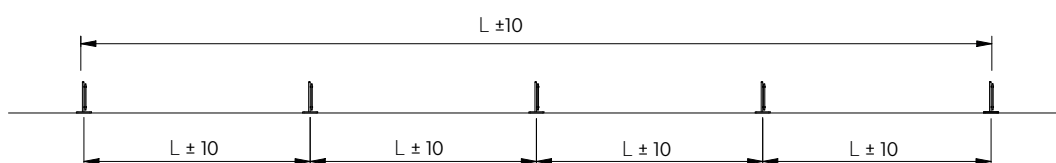

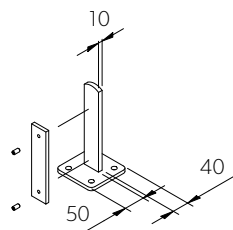

2. Fundament | Post brackets

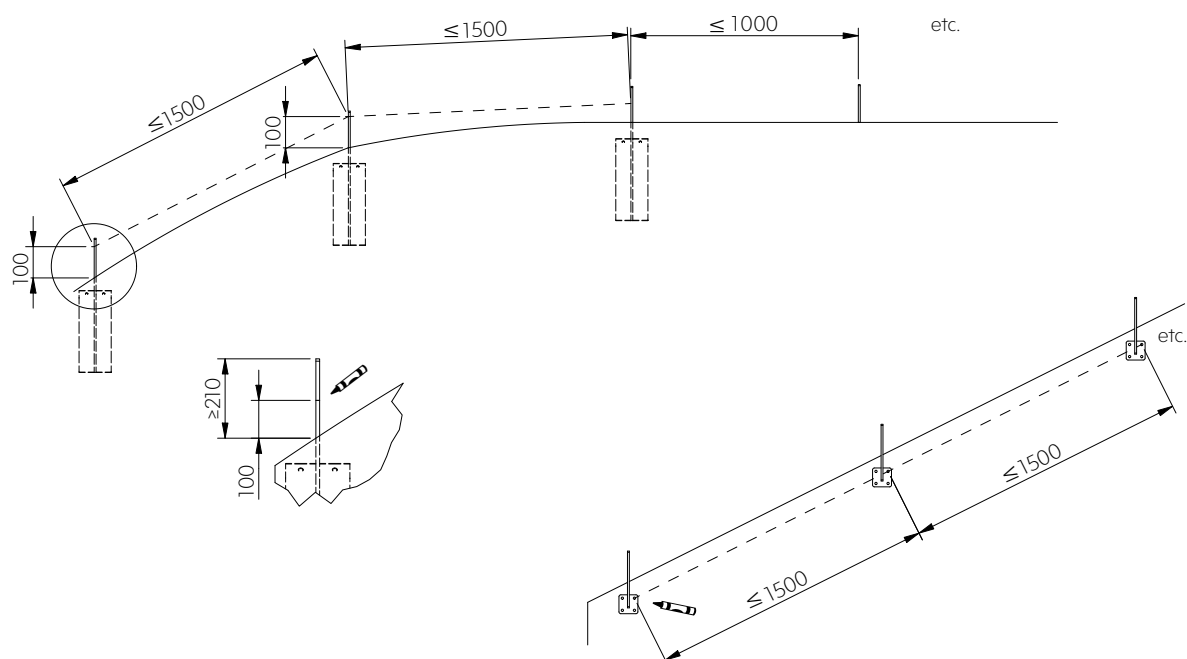

3. Uppmätning och montage | Measuring and installation

Plan yta | Flat surface

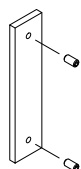

Lutande yta | Inclined surface

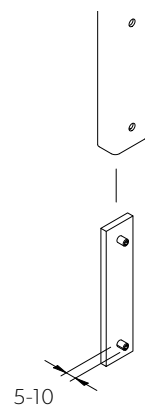

SV | Mått c/c mellan fundamenten kan mätas ut t ex med en markering 100 mm ovan mark.

EN | The dimensions c/c between the foundations can be measured, e.g., with a mark 100 mm above ground level.

3

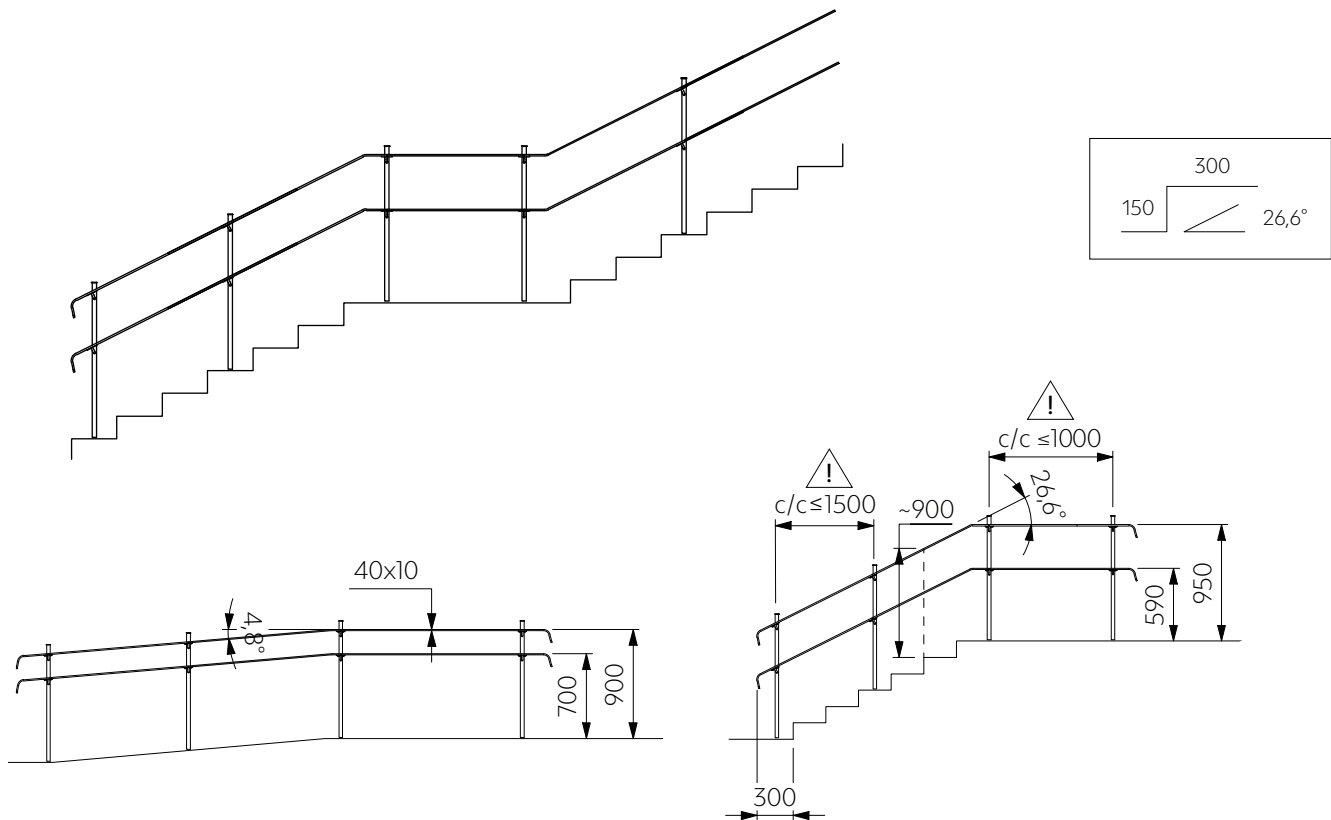

4

5

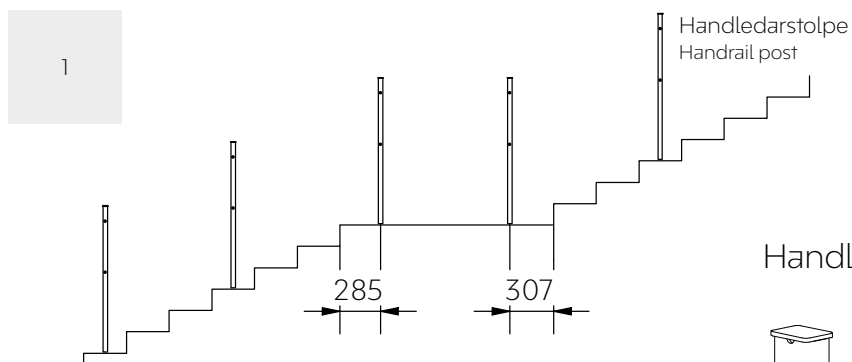

4. Handledarräcke - trappa 26,6° / ramp 4,8° | Banister railing - stairs 26,6° / ramp 4,8°

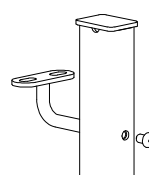

5. Montering av stolpar | Installation of railing posts

- SV • Positionera stolpar med distans c/c enligt gällande projektritning.
- Fixera med fundament eller ingjutning.
- För branta lutningar rekommenderas extra långa nedgrävningsfundament.

- EN • Place the posts acc. to project drawing.
- Fasten the posts with ground brackets/anchors or casting.
- For steep slopes, extra long ground anchors are recommended.

Handledarhållare | Handrail brackets

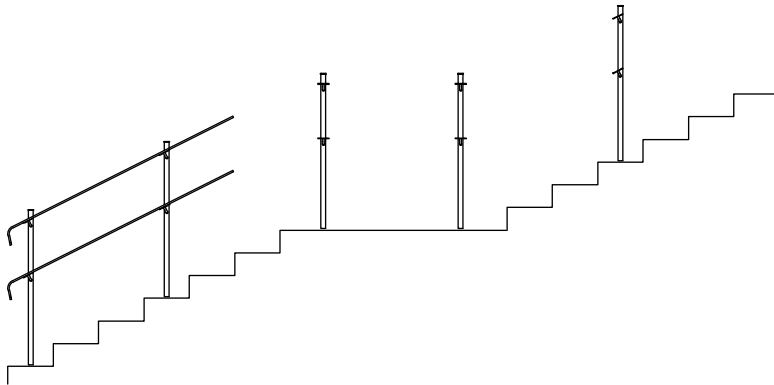

SV | Skruva bara så hårt att hållaren fortfarande går att rotera.

EN | Screw just enough that the holder can still be rotated.

2

Montera handledare, starta nerifrån | Install rails, start from the bottom

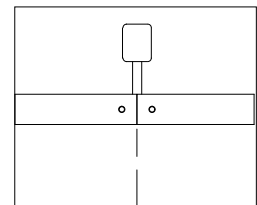

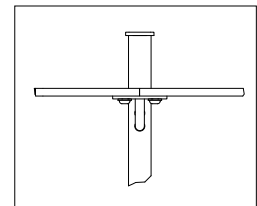

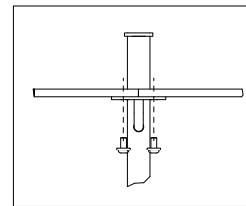

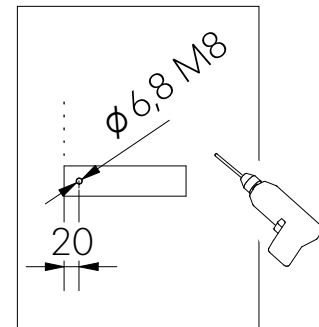

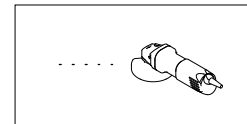

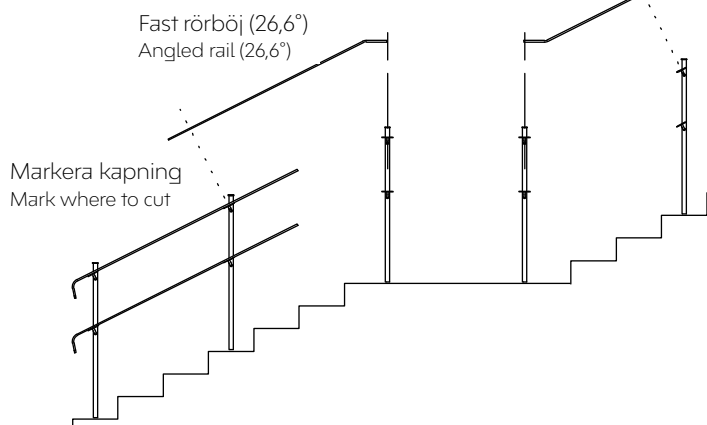

SV | Kapa handledaren vid behov

EN | Shorten the hand rail when needed

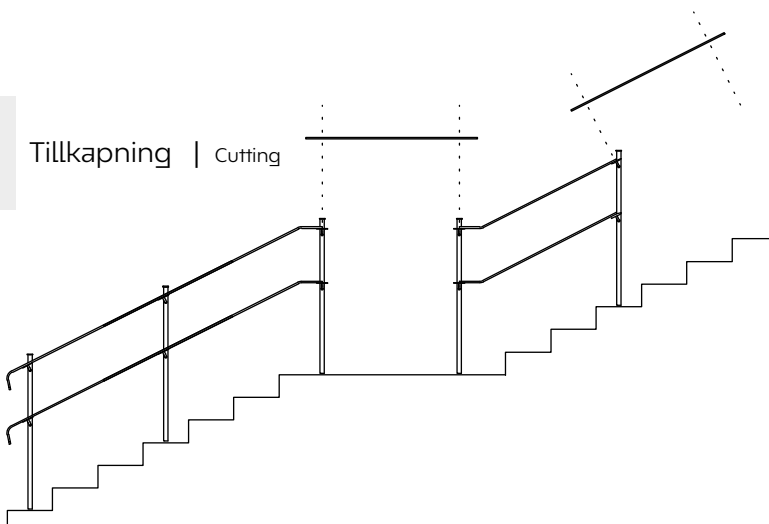

3

Tillkapning | Cutting

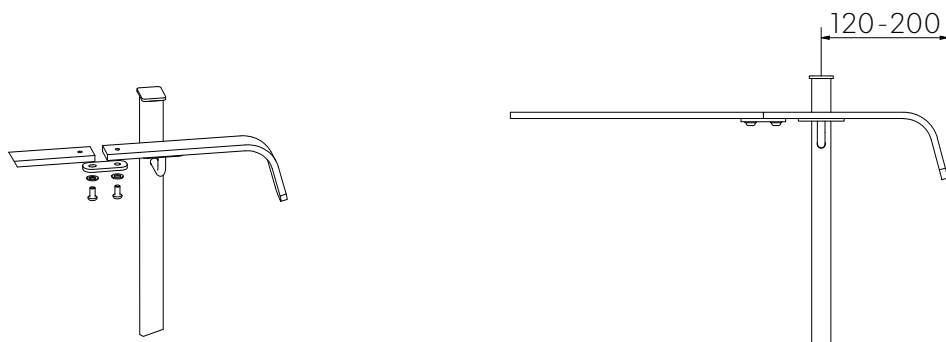

4

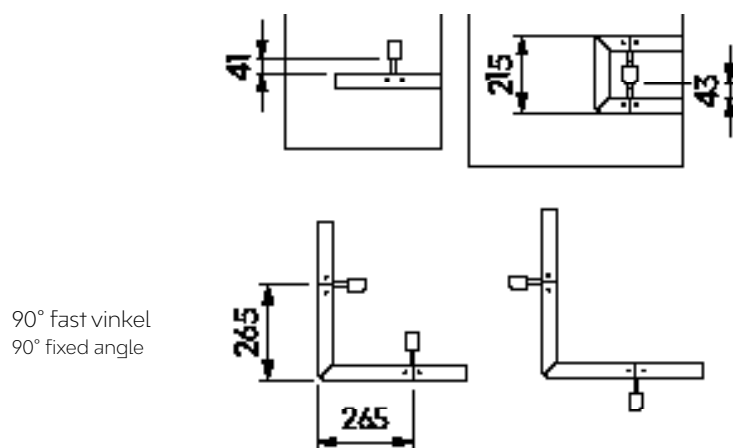

Tillkapning | Cutting

5 Avslut kort | End short

6. Hörn och vinkling | Corners and angling
